May 2009

Dear Customer,

In this May issue, we have decided to introduce our wide range of ball bearings whose reputation is now well established.

RBC France is ISO 9001:2000 certified and is indeed specialised in selling high-precision miniature ball bearings for varied sectors such as civil and military aviation, the automotive, dental and optical sectors. Our ball bearings comply with either standard dimensions or unique application specifications with brands such as RMB (which produced the first ever miniature ball bearings in the world in 1932), EZO and ORS (serie 6000).

We can also provide all kinds of radial ball bearings, with angular contact ball bearings, thrust ball bearings, made of chromium or stainless steel, imperial or metric dimensions, as well as assembly accessories such as precision spring washers, circlips and shims.

Ask for our free catalogs :

RBC France: an international partner with a team ready to assist you!
