

**Dear Customer,**

This month we have decided to introduce our complete range of adjusted, semi-adjusted, non-adjusted or special NICE precision ball bearings. These ball bearings are recommended for average loads with a rotation speed of up to 5,000rpm for adjusted ball bearings. The main fields of application are: agriculture, mowing, health, automotive, semi-conductors, handling, bottling/canning, etc. There are many options available such as special boring, enlarged internal ring, special shaped external ring (flange, mounting, etc.)

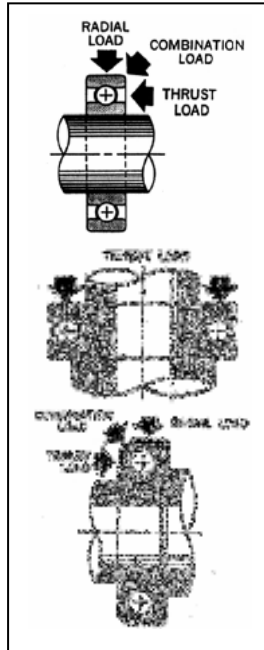

You can directly consult our website to check the availability of a product, its price even order one at [www.rbcfrance.com](http://www.rbcfrance.com) in the e-shop section.
