PINS

Dear Customer,

This month we have decided to introduce our wide range of balls, pins and spindles.

We sell small cylindrical parts which are highly accurate thanks to our expertise in micro-mechanics in miniature precision ball bearings.

We also offer balls with diameters measuring 0.200 to 150.00mm in chrome or stainless steel and pins measuring 0.40 to 10.01mm with a length of 8 to 90mm in chrome or stainless steel which are accurate to the nearest micron.

Special types of bearings according to drawings are also possible such as pivot, pivot holes, ruby or sapphire supports.

All our products comply with standard ISO 9001: 2000.

Ask for our catalogs :

RBC France: an international partner with a team ready to assist you!

Product of the Month

PINS/ROLLERS/SHAFTS

- Wide variety of precision ground steel and stainless steel pins, loose needle rollers and shafts
- Different machining : knurls, grooves, trunnions, undercuts, plating and coatings.
- Different ends : spherical, flat with corner break, ground, chamfer.
- diameter 0.031 to 1.250 inch or 0.787 to 31.750mm, other on request
- length 0.125 to 8.000 inch or 3.17 à 203.20mm, other on request
- available in inch and metric sizes
- Many materials available,

Certified ISO 9001 : 2000

RBC France also offers :

- RBC cam followers (McGill & INA interchange)
- Microlinea miniature linear bearings
- MPS miniature ball screws
- Bianchi TAS universal joints and cardan shafts
- ADAX needles, pins, rollers and shafts
- NICE, ORS (serie 6000) ball bearings
- RMB & EZO precision ball bearings
- FIBERGLIDE self-lubricating bearings
- UNIBAL, HEIM, HIRSCHMANN rod ends
- SCHAUBLIN collets and toolholders
- RBC thin section ball bearings (Kaydon interchange)
